

Eric J. Holcomb
Governor

Kristina M. Box, MD, FACOG
State Health Commissioner

Dec. 31, 2020

A message from the Indiana Department of Health to healthcare staff:

If you are currently practicing and having in-person contact with patients or exposure to infectious material in any healthcare setting, you are now eligible to receive the COVID-19 vaccine. Please make an appointment here: <https://scheduling.coronavirus.in.gov/vaccine>. Please use Firefox or Chrome to schedule on your computer or mobile device. The website will direct you to the right vaccination site for you.

This registration link is for eligible healthcare workers only at this time due to limited vaccine supply. **Please do not forward this message or the registration link other than to share it with your unlicensed staff who have direct in-person contact with patients or infectious material.** Please be aware that this is the only notification about vaccine registration your staff will receive at this time.

You may have already received the registration link from your employer if you work at a hospital, long-term care facility or dialysis center. To make an appointment, select the facility where you work or click on "my employer is not listed." A guide is attached with detailed information about the registration process. The scheduling tool will not allow you to cancel or change your appointment, so please make sure that the date and time you select fits your schedule. If you have a last minute emergency and need to cancel or reschedule your appointment, you must submit a ticket through our online helpdesk portal at <https://eportal.isdh.in.gov/C19VAXPublic/>.

The vaccine has been approved by the [FDA](#) for emergency use, and studies have found it safe and effective. Please tell the vaccine provider if you are currently ill or have ever had a severe allergic reaction. It takes two doses for the vaccine to work, so after you receive your first dose, please make your appointment right away to receive your second dose. You will receive a link to make a second appointment for your convenience after you receive your first vaccine, and a few reminders as well, or you may schedule using the link listed above.

To **promote**, **protect**, and **improve** the health and safety of all Hoosiers.

The link above will take you to our appointment scheduling portal, where you will then receive a link to register. It is important to complete the registration information prior to your appointment. Please provide correct insurance information. There will be no charge to you, and health insurance is not required.

More information is available at coronavirus.in.gov/vaccine.

Yours in health,

A handwritten signature in black ink that reads "Lindsay Weaver".

Lindsay Weaver, MD, FACEP
Chief Medical Officer
